TELEGRAM TO THE NEW YORK HERALD.

LONDON, March 3, 1871.

I have received the following despatch from the special correspondent of the New York Herald at Versailles, dated at nine o'clock last night. Your correspondent telegraphs:—

THE PEACE TREATY.

The following is a résumé of the preliminaries of peace and convention between Count Bismarck and the other German Plenipotentiaries with MM. Thiers and Favre.

THE CESSATION OF TERRITORY.

ARTICLE 1 provides that France renounces all right to the territories named as follows:—The line of demarcation between France and Germany, as at first proposed, is retained, with one exception. It commences in the northwestern frontier, at the canton of Cattemom, in the Department of the Moselle, runs thence to Thionville, Briey and Gorze; skirts the southwestern and southern boundaries of the arrondissement of Metz, thence proceeds in a direct line to Chateau Salmo, and at Pettoncourt, in that arrondissement, turns and follows the crest of the mountains between the valleys of the rivers Seille and Vezouze, in the Department of Meurthe, to the canton of Schirmeck, in the northwestern corner of the Department of the Vosges; thence it runs to Saales, dividing that commune, and after that coincides with the western frontiers of the Upper and Lower Rhine Departments until it reaches the canton of Belfort; thence it passes diagonally to the canton of Delle, and there terminates by reaching the Swiss frontier.

An alteration made at the last moment in these boundaries gives Belfort to France and cedes additional territory around Metz to Germany.

These lines are to mark the boundary of the territory which the German empire shall possess forever. A high commission is to be formed, composed of representatives of both nations, to regulate the frontier. The following modifications are, however, allowed:—In the Department of Moselle the villages of Marie aux Chenes and of Vionville are to belong to the Germans, and in the Department of Haut Rhin the city and fortress of Belfort are to remain in possession of the French.

THE WAR INDEMNITY.

ART. 2. It is agreed in this article that France shall pay to Germany five milliards of francs as a war indemnity—one milliard, at least in 1871, and the rest in the space of three years from the ratification of the treaty of peace.

THE EVACUATION OF FRANCE.

ARTICLE 3 provides that the evacuation of France by the German forces shall commence on the ratification of the treaty by the National Assembly. The German troops will then immediately quit Paris and the left bank of the Seine, and also the Departments of Cher, Indre et Loire and Seine Inférieure. The French troops will remain behind the Loire till the signature of a definitive treaty of peace, excepting in Paris, where the garrison is not to exceed 40,000 men. The Germans are to evacuate the right bank of the Seine gradually after the signature of a definitive treaty of peace and the payment of half a million of francs. After the payment of two milliards the Germans are to hold only the departments of Marne, Ardennes, Meuse, Vosges and Meurthe and the fortress of Belfort. After the payment of three milliards the Germans are to keep only 50,000 troops in France; but if sufficient money guarantees are given the Germans will evacuate the country completely at once; otherwise the three milliards will carry interest at the rate of five per cent per annum from the ratification of the treaty to final payment.

THE INHABITANTS OF THE CEDED TERRITORY.

ART. 4. The German troops are to make no further requisitions, but the French government will find food for the army of occupation. In the ceded departments favorable arrangements will be made with the inhabitants, and time will be given them to move out if they please. No obstacle will be placed in the way of their emigration.

PRISONERS OF WAR TO BE RELEASED.

ART. 6. It is provided in this article that all prisoners of war shall be liberated immediately after the ratification of the treaty.

The French railways are to lend carriages and engines to the Germans at the same price as they charge the French government.

FINAL SIGNING OF THE TREATY.

ART. 7. Immediately on the ratification of the treaty it will be definitely signed at Brussels.

MANAGEMENT OF THE OCCUPIED DEPARTMENTS.

ART. 8. In this it is agreed that the management of all the occupied departments shall be handed over to French officials, subject, however, to the German commanders, in the interest of the German troops.

OTHER MATTERS.

ART. 9. It is well understood that the Germans have no authority over the departments not occupied by them.

ART. 10. These presents are to be submitted and done by the 26th of February.

THE AGREEMENT FOR THE OCCUPATION OF PARIS.

The subsequent Convention provides as follows:—

Article 1 prolongs the armistice to the 12th of March.

Article 2 provides for the occupation of Paris by 30,000 Germans, and agrees to the separation of the French and German troops.

Article 3 agrees that no more requisitions shall be made by the German troops. If any are made the mistake will be rectified.

The treaty winds up with the usual words, "Done at Versailles, this 26th of February, 1871."

Count Bismarck notified of the Ratification of the Treaty—It is signed by the Emperor—The War Indemnity.

LONDON, March 3, 1871.

I send the following report for the information of the New York Herald:—

THE TREATY SIGNED BY THE EMPEROR.

A Versailles telegram dated the 3d says that M. Favre to-day notified Count Von Bismarck of the vote of the National Assembly, ratifying the preliminaries of peace. Count Von Bismarck at once replied that he was ready to exchange formal ratifications, and that the Emperor had already signed the treaty.

THE WAR INDEMNITY.

A despatch from Versailles says the French indemnity is payable in three instalments, viz.:—One milliard of thalers in 1871, two milliards in 1872 and two milliards in 1873. Interest is only payable on the last instalment, from which the proportion of the debt appertaining to Alsace and Lorraine, estimated at one-half milliard of thalers, and the cost of the railways in Eastern France, is to be deducted.
